

Winter Notes!!

Attn Men and Women

This memo is being distributed with the permission of the Windjammer Board.

Winter is here: Your trips to the golf courses have most likely slowed down..

So I ask the question: Have you ever played in a band? Do you have a musical instrument stowed away?

I am attempting to find out if there may be interest in forming a “Windjammer Band” for the months of **November thru April**, only.

I know we are a little late this year getting started, but the winter will be here for a while.

I have talked with the Windjammer board and they have agreed to allow us to practice in the clubhouse.

If we get enough interest, and feel that we can put a band together named “Winter Notes,” we could play for the Windjammer residents (and their friends) on *Saturday evenings* when no other events are scheduled. We will yield to other requests for Saturday night use of the clubhouse by our residents.

All in the village can come and just listen or dance to enjoy themselves.

Most of all, WE will enjoy ourselves “Jammin” under no pressure as we are doing it for fun and will not be paid. (Although we want to be good)

So!! I am looking for “**mature adults**” to make up our new group

I play the keyboard but another keyboard player would be welcome.

I am looking for **vocalists**,

Guitarists,

Bass player,

Horns,

A drummer

Fiddlers,

If you are interested in digging out that old instrument and participating, contact Bob Cristina at goodoldhippie@live.com. Or 843-281-6299, 843 457-9288

Tell me who you are, where I can contact you, what you play and what kind of equipment you have and when you are available for practice:

See the back of this sheet for the type of music that I am interested in. Other songs considered.

Let's talk!!

Suggested songs

	Artist
Bad moon rising	CCR
